DETAILED ACTION

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: Prior art of record teaches methods for selecting a driver for driving a load capacitance from a plurality of drivers by computing for each driver a cost based cost function associated with the driver and selecting the best driver according the cost based cost function criteria. Prior art of record does not teach the cost function being directly proportional to a delay of the driver and inversely proportional to the logarithm of a stage gain of the driver.

This application is in condition for allowance except for the following formal matters:

Election/Restrictions

Applicant's election without traverse of Claims 1-10 in Paper No. 6 is acknowledged. Cancellation of the non-elected claims is required.

Drawings

The drawings are objected to because none of them apply to the claimed subject matter. A new drawing should be submitted (perhaps a flow chart) showing the claimed subject matter. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

The disclosure is objected to because of the following informalities: Page 1, lines 8-14 refer to xx\xxx,xxx to describe several co-pending applications. This should be amended to have the actual serial numbers.

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
